

sc_interface

```
graph BT; Link[Link] --> Link0If[Link0If]; Link0If --> sc_interface[sc_interface];
```

The diagram illustrates a hierarchy of three classes. At the bottom is a box labeled 'Link'. An upward-pointing arrow connects 'Link' to a box labeled 'Link0If' in the middle. Another upward-pointing arrow connects 'Link0If' to a box labeled 'sc_interface' at the top. The 'sc_interface' box is enclosed in a dashed border, while the 'Link' and 'Link0If' boxes have solid borders.

Link0If
